

## Recommended Climate Organizations ~ Starting Points for Action

- **Appetite for Change** (<https://appetiteforchangemn.org/>)  
Systemic barriers make accessing fresh food in North Minneapolis a challenge for many. Through youth and workforce development programs, social enterprises, and policy initiatives, we build community capacity to engage with the food system in a fresh and sustainable way.

- **Climate Advocacy Lab** (<https://climateadvocacylab.org/>)  
The Lab equips the US climate movement with the evidence-based insights, skills, and connections needed to build durable power and win equitable solutions.

- **Climate Action Now** (<https://climateactionnow.com/>)  
This app makes it exceptionally easy to take meaningful climate action on your phone in just minutes by taking the recommended actions for the day. A great way to make a difference in your spare time!

- **Climate Generation** (<https://climategen.org/>)  
Since 2006, this education-focused organization has been building climate literacy, amplifying personal connections to climate change, and developing powerful advocates amongst educators, youth, and communities through a model of collaboration and partnership.

- **Elders Climate Action** (<https://www.eldersclimateaction.org/>)  
The mission of Elders Climate Action is to mobilize elders throughout the United States to address climate change while there is still time to protect the well-being of our grandchildren and future generations. You can join ECA and the Twin Cities chapter online. Lots of opportunities to learn and take action with others who care.

- **Gray is Green** (<http://grayisgreen.org/>) An online gathering of older adult Americans aspiring to create a green legacy for the future. Here you will find information, opportunities for action, and reflection; Part of the *National Senior Conservation Corps*

- **Growing Greener** (<https://growing-greener.org/>) Growing Greener moves people from anxiety to action on climate change. Using simple tools and trainings, they help individuals and organizations to view themselves not solely as victims of climate change but also as potential leaders of climate action. They get you started on taking your next step.

- **MN350** (<https://mn350.org/>) MN350 unites Minnesotans as part of a global movement to end the pollution damaging our climate, speed the transition to clean energy, and create a just and healthy future for all. Building campaigns with teams, they use policy advocacy, bold public events, political engagement and nonviolent direct action to change the rules of government and corporate behavior.

- **MN Renewable Now** (<https://www.mnrenewablenow.org/team>) With the lens of environmental and climate justice, this organization is working towards a carbon free future by starting with those who are the most vulnerable to the effects of climate change. Their grassroots efforts and partnering have brought clean energy initiatives forward.

- **Regeneration** (<https://regeneration.org/solutions>) Their mission is to bring humanity into alignment with the living world in order to end the climate crisis in one generation. The website creates the most complete list of challenges and solutions to the climate crisis and connects people to the resources, organizations, wisdom holders and know-how to get them done.
